> winner for the category of refreshment

**altaroma & merola gloves - il guanto di sfida 2011**  
> special mention

## PRESENT ME

## FUTURE ME

## GOALS

The road is never as planned, but if I tried to define what I wish to accomplish in the future, it would be as follows:

Long term - I would like to have the tools and skills to be able to run my own studio where I could design wearable future technologies. Most importantly, these technologies would have a positive impact on society and the environment.

Short term - I would like to learn about interaction design and how I can combine this with my existing areas of expertise.

Also, one day, I would like to do a long bike trip across Western China with my partner in crime.
